BUSINESS TOOLS · FOR MANUFACTURERS, PRODUCERS, STOCKISTS AND WHOLESALERS

Turn Your Supply into Musika Orders

Register accurate supply, quote real requirements and fulfil exactly what you quoted.

Version 1.0 · October 2026 · Your accepted quotation and signed terms govern every order.

01 Register and get accredited

- Prepare your trading name, location, contact and company and tax details.
- Register supply for each line: category, product, grade, volume, origin, minimum order, lead time and certifications.
- Accept the Charter and confirm the email code. Your trade desk then checks capacity, compliance and delivery.
- Musika charges suppliers a nominal registration fee and 3% of each transaction – Musika works as your sales team.

02 Quote a qualified requirement

- Read the full requirement and clarify before you quote.
- Give unit price, total, currency, quantity, lead time, payment terms and validity.
- State packaging, collection point, loading, warranty and documents.
- Hold your price for its validity, and dispatch only against a confirmed order.

03 Fulfil and get paid

- Match the order reference, specification and quantity before you prepare.
- Report shortages or delays at once; never substitute without written agreement.
- Prepare the invoice, packing and delivery records and route documents.
- Reconcile order value, the 3% fee and settlement against the order reference.

Your Worksheet

Type straight into the fields below and save, or print and fill in by hand.

RFQ reference; supplier contact

Product and specification; quantity

Unit price; total; currency

Validity; lead time; collection point

Payment and release; fee basis (3%)

Documents, warranty and exclusions
